FACULTY INFORMATION

Dr. Rossi is a board certified neurologist specializing in neurological rehabilitation. His practice here in the State of Hawai'i is devoted to maximizing recovery and enhancing the quality of life for persons living with brain injury, spinal cord injury, stroke and other devastating injuries.

Ms. Kellogg is the Executive Director of the Brain Association of CO. She was born in HI and is a graduate of UH Manoa. Her youngest son, Greg was in an accident in 1987 and received a brain injury. He was in a coma for a year and a half and passed away in 1989. This is when she began volunteering at the Brain Injury Association of CO. As it's Executive Director, Ms. Kellogg runs the day-to-day operations and program management. Through numerous services, programs, and community outreach, the Association provides direct services to two thousand survivors, family members and professionals annually in the State of Colorado.

Dr. Isaki is an Assistant Professor and the Speech-Language Pathology Clinic Director. Her areas of interest include intercultural communication and neurogenic disorders. Her current research has focused on communication and work re-entry following traumatic brain injury. She received her B.S. and M.S. from the University of Utah and her Ph.D. from the University of Arizona.

Dr. Ashley is the Co-Founder and President of Centre for Neuro Skills (CNS). As a speech pathologist, Dr. Ashley has specialized in brain injury rehab and cognitive deficits since 1979 and is recognized by his peers as an expert in the field. He has lectured at more than 100 national and international professional education activities to promote and refine therapeutic endeavors for survivors of traumatic brain injury. He is presently Chair-Elect of the Brain Association of America.
